

CS 2800 – Web Development I
Fall 2015
Assignment 9 – Chapter Presentation

Due: See schedule by table number below. Materials should be uploaded to the dropbox by the end of the day in which the presentation is scheduled.

Prepare the following materials for your assigned chapter. Present the lesson to the class on the assigned day; upload all materials to Pilot by the end of your scheduled day.

- A powerpoint presentation
- An example web page or pages (html/css)
- A short activity to be done in class
- At least 10 exam questions (multiple choice/short answer) (word document; do not share during the presentation)
- A list describing who did what within your group (each person in the group should write up a short paragraph; these may be merged into one document and uploaded, or separate documents from each person may be uploaded to the dropbox).

Grading: 20 points total --10 points for overall presentation/group work, 10 points for individual work.

Presentation: did the powerpoint presentation and example clearly and thoroughly cover the topic; was it professionally presented; was the lecture activity appropriate for the topic and the time given; did the exam questions adequately cover the material presented; was each individual well-prepared to answer any questions on this topic?

Materials: Were all required materials uploaded to Pilot on the day of the presentation? Were they organized in a logical manner? Were they neatly formatted?

Schedule:

Monday, October 26 – Table 6 – Chapter 13

Wednesday, October 28 – Table 1 – Chapter 12

Friday, October 30 – Table 3 – Chapter 10

Monday, November 2 – Table 2 – Chapter 14

Wednesday, November 4 – Table 5 – Chapter 9

Friday, November 6 – Table 4 – Chapter 11
