CS 2800 – Web Development I
Fall 2015

Assignment 4 – Web Development Issues

Due: Tuesday, September 22, 11:59 pm.

Turn in: Upload your document, named ***yourLastName_assignment4.html,*** to the dropbox on Pilot.

Re-do your assignment 1 document as a web page. Be sure you follow these requirements:

- Within the body, include a header area and a main area. The footer is optional.

- Your name, date, and assignment number should appear in the header area of the page.

- The remaining content should appear in the main area of the page:

  - Include a main heading for the page

  - Use a subheading for the URL of the good page, and a similar subheading for the URL of the poorly done page.

  - Use a list (ordered or unordered, your choice) under each of the subheadings in the previous step to indicate the reasons for your choice.

  - Do a screen capture of each URL, resize it to no more than 400 pixels wide, and place the image in an appropriate spot on your page.
